Good Afternoon,

The EOC received notification of a protest in the United States Capitol Building (Owned) located at First Street Southeast, Washington, DC. The Capitol Building is now under lockdown after protesters breached barricades to the grounds. Demonstrators have advanced their way inside the building. The Vice President and members of both the Senate and House of Representatives have been evacuated. The US Capitol police are striving to get the situation under control and FPS and the US Secret Service are being deployed. One person was shot inside the building and several others have been injured. In response, the Mayor's office has instituted a 6 p.m. to 6 a.m. curfew in the District of Columbia and activated the entire DC National Guard. The EOC will continue to monitor this situation and provide updates as information becomes available.

Thank you,

I want to share some background on the meeting request that went to OMB and ITC from Karen Evans. We had flagged the issue back in the October OAR entries. (I pasted the most recent one from late October below.) The DHS award was protested and one of the protest grounds was some awarded CLINs were not on the master contract. Questions were raised as to the accuracy of the GSA pricing tool. During the investigation on GSA's part, there was no evidence that the database had changed.

We will meet with the DHS and OMB to discuss their lessons learned and address any concerns that they have.

Thanks,
Laura

Department of Homeland Security (DHS) Enterprise Infrastructure Solutions (EIS) order protest: On 10/14/20, DHS reached out to GSA stating that Contract Line Item Numbers (CLINs) AA00325 and AA01003 appeared in the EIS Pricer on 10/2/20. After running various checks, the ITC EIS team determined this may have been a result of a DHS data entry error in early September 2020. ITC executives met with the DHS Head of Contracting Activity on 10/28/20 where DHS again expressed concern that the CLINs were included in the EIS Pricer on 9/2/20 but then removed. ITC confirmed there were no changes to the database for the CLINs from 9/2/20-9/30/20 and reaffirmed the likelihood that this issue was caused on DHS' end. ITC submitted a summary of findings to DHS on 10/29. This is likely to be escalated further.

Situational Awareness
Status as of 6:15 pm: Ongoing

Good Evening,

Update #1:

There has been one death as a result of the shooting inside the Capitol Building. The Maryland and Virginia State Troopers have been called in for additional law enforcement support. The Maryland and Virginia National Guard have been activated to assist law enforcement in restoring order. The Mayor of DC's instituted curfew of 6 pm to 6 am is currently in effect. The EOC will continue to monitor this situation and provide updates as information becomes available.

Original Information:

The EOC received notification of a protest in the United States Capitol Building (non GSA owned) located at First Street Southeast, Washington, DC. The Capitol Building is now under lockdown after protesters breached barricades to the grounds. Demonstrators have advanced their way inside the building. The Vice President and members of both the Senate and House of Representatives have been evacuated. The US Capitol police are striving to get the situation under control and FPS and the US Secret Service are being deployed. One person was shot inside the building and several others have been injured. In response, the Mayor's office has instituted a 6 p.m. to 6 a.m. curfew in the District of Columbia and activated the entire DC National Guard. The EOC will continue to monitor this situation and provide updates as information becomes available.

Thank you,

Watch Officer

The EOC received the following information:

On January 6th, GSA received notification of a confirmed COVID-19 case. A GSA Janitorial Contractor working in the building tested positive on January 4th and has self-quarantined. The individual was last in the facility on December 31st. GSA notified tenants, service contractors, and construction contractors on January 6th. Areas traversed/disinfected include: public entry/exit, all public elevators, all freight elevators & hallways, 2nd, 7th and 10th floors (including cafeteria tables, chairs and drinking fountains), loading dock, and janitorial closets on the 2nd, 7th and 10th floors. GSA has determined that these areas and all other common areas have been cleaned twice daily since December 31st. Cleaning is not required.

got it Emily. OFM accountability is ongoing... very sparse population at White House Service Center and RRB (typically our most populated during COVID) in anticipation of operational challenges this week...

The EOC received the following information:

There is a confirmed COVID-19 employee at the Presidential Transition Office. Please be advised that this space is fully demised from the portion of the building occupied by the Department of Commerce. The Herbert C. Hoover Building is a delegated facility, with all building operations conducted by the Department of Commerce. The GSA PTST reported on January 4th that the affected team member was last in the office on December 30th. While in the office, the team member's path of travel included transient presence on all floors and in all suites/offices on floors 3 through 7; however, the individual mainly accessed the GSA space on the 2nd floor. Since receiving the report, the Presidential Transition Support Team has documented the last day that the employee was in the office and the path of travel the employee took while at the facility. The Presidential Transition Support Team has reached out to GreenClean, Inc. and is in the process of scheduling cleaning. Cleaning is required.

The EOC will continue to monitor this situation and provide updates as information becomes available.

Emily,
I know Darren and Bobby Carter have been coordinating all day and Bobby has been updating your office. I understand your office requested we close 1800F. You should have received this memo from Bobby for approval, but in case you haven't seen it yet Darren is ready to sign and send with your approval.

Please let me know if you need anything else from us or would like to talk.

In addition, we have coordinated with FPS to close the Reagan building to public access.

Hello GSA Leaders -

First, let me begin by saying Thank you! As of today, GSA's total donations are \$171,086.58 which is 64.5 % of our

\$265,000.00 goal. This is great progress and we have already exceeded where we were this time last year by nearly

\$11,000. Please help us continue to seize these last few days of the campaign. With the CFC, making a difference

is easy, but the window to pledge is rapidly closing. The final day to pledge is Jan. 15, 2021, so there is still time to

contribute!

Don't forget your gift is tax deductible! New legislation in 2020 allows taxpayers to deduct \$300 (\$600 for married

couples) for qualifying charitable donations even when taking the standard deduction. Giving is simple and can be

done online at GiveCFC.org.

Thanks for helping spread the word. On behalf of all those who will benefit from your kindness, thank you so much

for choosing to *Show Some Love*.

Best Regards,

Andy

Emily, I know Darren and Bobby Carter have been coordinating all day and Bobby has been updating your office. I understand your office requested we close 1800F. You should have received this memo from Bobby for approval, but in case you haven't seen it yet Darren is ready to sign and send with your approval.

Please let me know if you need anything else from us or would like to talk.

In addition, we have coordinated with FPS to close the Reagan building to public access.

Thanks,
Dan
